

Bathymetric LiDAR Mapping of Ochlocknee Shoal
Aucilla Research Institute

Letters of interest from qualified Mapping firms are solicited for acquisition and processing of high-resolution topo-bathymetric LiDAR data of an area in Apalachee Bay known as the Ochlocknee Shoal. Geographic coordinates for the area of interest are as follows:

-084.16667,29.91667,0

-084.24167,29.91667,0

-084.24167,29.87167,0

-084.16667,29.87167,0

-084.16667,29.91667,0

Price proposals are not requested at this time. Rather, an expression of interest in the project, not to exceed two pages in length, briefly describing the proposed approach to the project, qualifications and experience. Project specifications and fee will be negotiated with the selected firm.

Letters of interest must be received by email by 5PM on Monday, July 19, 2021 and should be addressed to the following:

George M. Cole, PE, PLS, PhD
Aucilla Research Institute
